

# Summer Internship 2024

<<Interpret-CXR >>

*Team members:*

*Faculty-in-charge:* Dr. Sowmya Kamath S.

Department of Information Technology  
National Institute of Technology Karnataka, Surathkal

**June 11, 2024**

## Summary

Language model was prepared for findings and impressions by finetuning GPT2

Both the Models were trained to 3 Epochs going over that increased val loss

Swin Transformer was used as a vision encoder . Images are preprocessed as needed by the transformer.

The vision model was trained upto 3 epochs and was mapped to the Findings Language Model

As of now only Findings is being generated for the report

**THANK YOU**
